Re: Recommendation Letter for Ms. Rahaf Haitham Omar Abu Hera

I knew Ms. Rahaf Haitham Omar Abu Hera as an undergraduate student in Mechatronics Engineering Program at the Hashemite University in Jordan (before leaving to work at the German Jordanian University). I knew her since her second year through "Dynamics and Vibrations" course. She got an A+ in this course. The number of students who got this grade is less than a handful!.

Ms. Abu Hera is an excellent student. During her study, she showed intelligence and motivation to learn. Very often, she visited me in office hours after classes or chat over Internet (emails, Facebook,...) to discuss problems deeply. Also, she showed very good analytical skills to solve problems and obtain smart and innovative solutions.

I found that Ms. Abu Hera has very good communication, leadership and networking skills with other students and staffs. She shows respect and manners for her teachers and lab supervisors. These characters make me highly recommend Ms. Abu Hera without reservation to complete her higher studies.

Please feel free to contact me for further information.

A handwritten signature in blue ink, appearing to read 'Bashar', with a long, sweeping horizontal line underneath.
